It's Good Medicine.

## Salonpas® Pain Relieving FLEX Patch Lidocaine 4%

**Maximum OTC strength lidocaine patch for the temporary relief of pain**

### How it works

Topical Lidocaine reversibly blocks nerve conduction by targeting free nerve endings and producing temporary loss of sensation in a local area. As a powerful sodium channel blocker, lidocaine stabilizes the neuronal membrane by binding to and inhibiting voltage-gated sodium channels, thereby inhibiting the ionic fluxes required for the initiation and conduction of impulses and effecting local anesthesia.<sup>1</sup>

#### Key Features/Benefits

- Maximum OTC strength lidocaine
- Stretchable, thin fabric that contours to the body
- Strong adhesion

#### Active Ingredients

Lidocaine 4%

#### Usage Indications

Temporary relief of pain

#### Patient Profile

A patient presents with acute musculoskeletal pain.
